## Installations

No radio station or short wave operations of any kind shall operate from any Unit, Limited Common Elements or Common Elements. Except to the extent permitted under applicable laws, no exterior satellite dish, or other transmitting or receiving apparatus, radio antenna, television or other antenna of any type shall be erected or maintained on the common elements, Limited Common Elements, or Units, without the prior written consent of the Association. Notwithstanding the forgoing, upon obtaining the prior written consent of the association, satellite dishes and other devices permitted under applicable law, may be installed within the units or within any Limited Common Elements appurtenant thereto, provided, however, that in no event shall any such device be installed in or on any other portion of the Condominium Property. To the extent permissible under applicable law, the Association may enact Rules and Regulations, requiring that any devices which may be permitted under applicable law are comparable in size and weight and appearance, are installed and maintained in a manner designed to protect the safety of the buildings and its occupants and satisfy any standards established by the association for architectural appearance purposes. In addition, the foregoing is subject to (and the Unit Owners agree to be bound by) the provisions of the Cable/Internet Agreement referred to in the Section of this Prospectus entitled "Management of the Association and Maintenance and Operation of the Condominium Property". In the event that a Unit Owner wishes to install a satellite dish or individual antenna, Unit Owners agree to be bound by and comply with the terms and provisions on any Satellite Dish and Antenna Addendum referred to as Exhibit "G" in the Cable/Internet Agreement. The foregoing is subject to the provisions of Section 8.2.13 and other applicable provisions of the Master Covenants.

For these and other restrictions upon the use of Units and Common Elements, reference should be made to all Exhibits contained in this Prospectus (particularly Sections 9 and 17 of the Declaration) the Rules and Regulations attached to the By-Laws.

I have received information on satellite dishes. If I wish to install one, I must first fill out an architectural modification form for the Board's Approval.

## Requesting Access with a Visitor Call

- Navigate to Resident Directory using Navigation keys.
- Scroll through the alphabet to the first letter of the last name.
- Press Enter.
- Scroll through name list to desired entry.
- Press Enter to call.
- If the visitor already knows the resident's directory number, they can enter the directory number to call the resident.
- The system dials the resident's telephone number to establish 2-way communications.

**NOTE:** The resident's telephone number will never be displayed to the visitor.

- If the resident is using the telephone at the same time a visitor calls, the display will indicate to the visitor that the line is busy.
- The resident answers the call and converses with the visitor to determine if access will be granted.
- The resident can use their telephone's keypad to grant access activating Relay Channel "A" by pressing **[9]**. After access is granted, the system will disconnect the visitor and resident call.
- The resident can disconnect the visitor without granting access by pressing **[\*]** or by hanging up.

**NOTE:** The telephone keys that the resident presses can be customized for the installation.

- The length of time the visitor is allowed to talk can be programmed from 30-300 seconds.

## Test and Maintenance Operations

Prior to installation, ensure that all inside wiring is secure. Each unit should be checked annually for any loose wire connections.

## Impaired Operation

Units are designed to operate under adverse environmental conditions. Under normal circumstances, they will function properly regardless of outside conditions. However, units do not have secondary power sources and cannot function without direct continuous power. If a unit is damaged by natural causes or deliberate vandalism, it may not function properly depending on the level of damage.

## ***How to run a channel scan?***

The best way to complete a channel scan is to refer to the TV owner's manual. If the owner's manual is unavailable, the following general steps should guide you through the process.

- 1.) Using your television's remote control, press the Menu or Settings option.**  
Note: a "Smart TV" may have a smart button that must be used to access the settings menu.
- 2.) Locate Channels or Tuner Set Up option.**
- 3.) Check the menu for an option of Antenna Type or Connection type followed by either Antenna or Cable.**
- 4.) Make sure that the designated setting is Cable** (based on manufacturer, alternate choices may include Digital Cable, CATV or Cable STD).
- 5.) From the menu, choose Digital Channel Search** (based on manufacturer, alternate choices may include Channel Scan, Channel Search or Autoprogram).
- 6.) Allow the TV to complete the search. You will see a bar listing how many channels have been found.** The process may take up to an hour.
- 7.) Once complete, confirm the menu prompt, then press an exit or quit option.**

Please note: All TV manufacturers differ, so menu options, wording and other items may vary.

**If you are unable to finalize this process on your own, please call our customer service department for further assistance.**
