Emotional Support Animal Request for Accommodation Document Checklist

1. Letter from a licensed healthcare or mental healthcare provider that prescribes a specific emotional support animal to a person with a disability they are personally aware of. Specific animal would mean a short description such as name, breed, color and type of animal (cat or dog).
2. A veterinary record for the animal that would indicate a vaccine history and the pet license issued. The veterinary record should match the same name of the animal in the prescriber's letter.
3. A photograph of the animal for identification of the specific E.S.A.

You may refer to FL Statute 760.27 for the complete law governing emotional support animals in Florida.
