

HOUSE COLOR INSTRUCTIONS

ARC approval required prior to painting. Choose one color from Column A and one from Column B. The colors in Column C are optional accent colors that may be used on the front door only, not the garage door and not for trim. The darker tones in Column A may be used for body (walls) with a light trim color from Column B, or they may be used as trim with a light body color from Column B. The garage door may match either the body or trim color. There is a color chart at the clubhouse where you can view the color samples with suggested combinations for body and trim. The samples are Sherwin Williams, but you may use the brand of your choice mixed to match. Please submit your choices on the ARC request form available on the GRS website.

Column A Body or Trim	Column B Body or Trim	Column C Optional Front Door (not for garage door)
