

Promulgated rule regarding dumpsters – Approved by the Board on September 12, 2012

Placement of a dumpster on homeowner property requires prior approval by the Board through the management company. The dumpster may be placed only on the driveway area; no dumpster may be placed on the common street area in front of the home or any other portion of a home's property. A dumpster may not remain on the property for more than a 4 week period from the date of placement, unless given prior approval by the Board through the management company.
