GUIDELINES FOR ADDITIONS AND ALTERATIONS

As provided in the Declaration, all improvements, additions, modifications, decorations or alterations visible from or affecting the exterior of the Home or Lot (the "Improvement") shall be reviewed by and receive written approval from the Architectural Control Committee ("Committee") prior to the commencement of the Improvement. All requests for Committee approval of any Improvement must be on the form designated for this purpose by and available from the Association. The Committee shall require the submission of plans and specifications showing the materials, color, structure, dimensions and location of the proposed Improvement in sufficient detail to assure compliance with any criteria established for approvals. Submissions shall be accompanied by justification or reasoning for the Improvement and the security deposit, if any, required by the Board to cover the costs of incidental damage caused to Association Property or to an adjacent Lot or Home by virtue of an Owner's construction of improvements, additions or alterations to such Owner's Lot or exterior of the Home. The Association may also require the submission of additional information prior to approving or disapproving Improvements. The Committee shall approve or disapprove the request within 45 days from receipt of all requested submission plans and materials. In the event the Committee fails to approve or disapprove a request in writing within 45 days of receipt of all requested plans, materials and information, unless a request is specifically deferred, the request shall automatically be deemed disapproved. No modification, installation and/or construction of an Improvement shall be commenced until such time as the Owner is in receipt of written approval from the Committee.

The Committee shall approve proposed plans and specifications for Improvements submitted for its approval only if:

- (i) it deems that the Improvements contemplated will not be detrimental to the appearance of the surrounding area of the Property as a whole;
- (ii) the appearance of the Improvements will be in harmony with the surrounding structures and is otherwise desirable; and
- (iii) the Improvements are consistent with the "Community Standard" (as defined in the Declaration).

The Committee shall also adhere to the restrictions and requirements for Improvements provided in the Declaration, Rules and Regulations and other guidelines as may be promulgated by the Board with respect to any and all additions and alterations within the Property.

The Committee may condition its approval of proposed plans and specifications in such a manner as it deems appropriate, including, without limitation, Owner's compliance with any and all Governmental Requirements. Such conditions of approval may also require, among other things, complying with Governmental Requirements.

If approved by the Committee, all construction shall be subject to the terms and conditions set forth in the Committee's approval, the Governing Documents, the Rules and Regulations, and any applicable Governmental Requirements, including, without limitation, obtaining all proper permits. Approval of an Improvement by the Committee shall not be deemed to be an exemption from compliance with all Laws.

ADDITIONAL GUIDELINES FOR ADDITIONS AND ALTERATIONS

Without limiting the generality of the requirements set forth on Page 2 of these Rules and Regulations and without curtailing the right of the Committee or the Board in rejecting certain requests or employing judgment in evaluating requests, the following guidelines shall be considered when evaluating requests for Improvements. Note that, even in the event of strict compliance with the following guidelines, prior approval from the Committee shall be required for each and every of the following items and are subject to any conditions imposed by the Committee if approved:

1. *Painting.* The painting, staining or varnishing of the exterior of the Home, including doors and garage doors, may be approved only if the colors and style are consistent with existing improvements. Declarant's original paint color schemes provided to its original purchasers shall be the basis for determining consistency with existing improvements but shall not be the sole basis. For example, the Committee may permit Owners to stain or varnish their doors and garage doors, or replace same with wood or wood-like products notwithstanding such stain or varnish colors and/or wood or wood-like products are not provided by Declarant to its original purchasers. No Home shall have the same exterior color scheme as either of the homes placed next to it whose front elevation is on the same street frontage.
2. *Metal or Aluminum Roofs.* Metal or aluminum roofs shall not be permitted.
3. *Structural Additions.* Structural additions to the Home may be approved only if the paint, stucco and roof of such structural addition are consistent with existing improvements. Declarant's original paint color schemes and roof tile selections provided to its original purchasers shall be the basis for determining consistency with existing improvements but shall not be the sole basis.
4. *Temporary Structures.* No tents, trailers, shacks, utility sheds or other temporary buildings or structures shall be constructed or otherwise placed on a Lot.
5. *Landscape Material.* Any plans for landscape improvements or alterations (including, without limitation, sod, artificial turf, plants, hedges, trees, mulch and/or landscaping rock) shall be submitted for approval to the Committee. Without limiting the foregoing, no trees, shrubbery or landscaping shall be removed from, altered or added to Lots without the prior written consent of the Committee and no additional trees, shrubbery or landscaping are permitted to be planted by an Owner on the Lot without the prior written consent of the Committee. In order to ensure proper drainage, installation of artificial turf is only permitted in the rear yard of the Home as a minor decorative feature and may not be used to replace sod or used in lieu of decking. Only CitraZoy® Zoysiagrass sod is permitted to be installed on the Lot. In the event that the Committee approves any additional trees, shrubbery or landscaping to be installed on the Lot which was not initially installed by Declarant, the Association's Home Landscaping Services will not include the maintenance and care of such additional material.
6. *Antennae and Satellite Dishes.* No antennae, microwave receiving devices, satellite receiving devices, aerials or ham radios shall be placed or erected on any Lot, within any Home or upon any other portion of the Community, except to the extent applicable law requires the Association to permit any such device, in which case such improvement shall be subject to all of the other requirements of the Governing Documents and the Committee to the maximum extent permitted by law. Satellite dishes which are reasonable in size (such as one (1) meter (39.37 inches) or less in diameter) may be approved, subject to any rules adopted by the Association relating to the location and effectiveness with respect to concealing their appearance from adjacent lots and rights of way.
7. *Solar Panels.* An Owner shall not install or attach any solar panel to the Home without the prior written consent of the Committee. The Committee shall have the right to adopt and amend, from time to time, guidelines governing the type, design and size of solar panels which may be permitted, and restrictions relating to locations and the maintenance of the solar panels.
8. *Driveways.* Approval for the widening of front load garage driveways may be considered if the width is no wider than the outside width of the garage. For side load garages, the shape and size of the driveway extension, if approved, will depend on lot and field conditions. All driveway extensions must be finished with a material of a selection, color and style consistent with the original installation. Owner assumes the responsibility for continued maintenance, repair and replacement of the extended driveway areas. Approval for the refinishing of driveways with brick pavers may be approved only if the colors and styles are consistent with existing improvements and it does not interfere with any existing utilities, as determined by the Association. Declarant's original brick paver schemes provided to its original purchasers (on either a standard or optional basis) shall be the basis for determining consistency with existing improvements.

ADDITIONAL GUIDELINES FOR ADDITIONS AND ALTERATIONS (continued)

9. *Security Cameras.* Committee approval shall not be required for the installation of up to four (4) security cameras and a doorbell camera on a Home; provided, however, if an Owner wants to exceed four (4) security cameras on a Home, the addition of any additional security cameras shall require the prior written approval of the Committee. Security cameras shall not be installed on any portion of the Lot, other than on the Home. All security cameras must be installed so as to only record/photograph the immediate vicinity of the Home and shall not be deliberately pointed at the windows or doors of neighboring Homes or at an area within a neighboring Lot in which a person would have a reasonable expectation of privacy.
10. *Exterior Door Hardware; Decorative Wreaths.* Committee approval shall not be required for the installation of new door hardware (including electronic keypads) on any exterior doors and/or decorative wreaths placed on the front door of the Home. Notwithstanding the foregoing, all changes or improvements to any door of the Home, including, without limitation, painting and/or installation of any films, decals, etching or similar treatments, require prior approval by the Committee.
11. *Improvements within Covered Patios.* Each Home in the Community constructed by Declarant includes a covered patio in the rear of the home. Except for summer kitchens, improvements located within such covered patios shall not require prior approval by the Committee. Examples of such exempted improvements include televisions, portable grills, outdoor furniture and decorative accessories located within a covered patio in the rear of the home. For clarity, such exemptions do not apply to improvements located within a screen enclosure (i.e., a screen enclosure surrounding the rear yard and/or pool), all of which require prior approval by the Committee.
12. *Awnings.* An Owner shall not install or attach any awnings to the Home without the prior written consent of the Committee. The Committee shall have the right to adopt, and amend, from time to time, guidelines governing the type, design, size and color of awnings which may be permitted, and restrictions relating to locations and the maintenance of the awnings.
13. *Exterior Lighting.* Except for seasonal decorative lights, which may be displayed between Thanksgiving and January 31 only, all exterior lights must be approved by the Committee. Approval may be given for lighting fixtures (e.g. coach lights and entry chandeliers), subject to fixture sizes which are to scale with others in Community and fixture styles which are consistent with others in the Community.
14. *Above Ground Swimming Pools and Spas.* Above ground swimming pools shall not be permitted. Above ground spas shall not be permitted unless: (i) the entire spa is located under a covered patio area of the Home, or (ii) the entire spa is located within the screen enclosure of the Home and the entire base of the spa shall at all times be screened from view by all adjacent Lot Owners and from the street with the use of hedges and/or landscaping. Owner shall be required to submit a landscaping plan to the Committee to show proper screening of the spa base. Owner shall be responsible to maintain, repair and replace from time to time any hedges and/or landscaping which may be approved as part of the screening requirements for the spa.
15. *Fountains and Sculptures.* All fountains and sculptures to be installed in the exterior of the Home must be approved by the Committee. Certain fountains may be considered for approval if installed with timers and if to scale with the area of installation. Approved fountains may only be installed in the rear yard of an Owner's Lot. No fountain shall be approved or installed which exceeds 5' in height. Fountains shall only be permitted to run between the hours of 8:00 a.m. and 11:00 p.m. No more than two sculptures shall be permitted per Home and sculptures are not permitted in the front yard.
16. *Play Equipment.* Permanently installed play equipment may be approved which is of a common playground type designed for children. No play equipment is, or shall be, permitted on a Lot that is not completely fenced in. No play equipment shall be permitted within lake maintenance, utility, drainage or access easements, except basketball hoops in the driveway areas. By submitting a request to the Committee to review and approve the placement of play equipment on a Lot, the Owner shall be deemed to automatically agree that the Association shall not have any responsibility for the maintenance and care, mowing, fertilization, repair and/or replacement of sod or other plantings located under the play equipment, all such responsibilities thereafter being the responsibility of the Owner of the Lot.
17. *Basketball Hoops.* Permanent and temporary basketball hoops must be placed in the driveway only at a location which is no closer than midway between the garage door and front property line. The entirety of the base and rim must be installed or placed within the Lot and may not encroach into any neighboring Lot. Owner shall maintain such equipment free of mildew, rust and deterioration of any equipment components.
18. *Outdoor Courts or Other Outdoor Surface Installation.* Certain outdoor sports courts or other outdoor surfaces for games requiring permanent installation may be permitted at the discretion of the Committee if the Lot can accommodate such a

23. *Outdoor Furniture.* Approval of outdoor furniture may be permitted only in the rear yard of a Lot, or if applicable, in the front of the Home within the front verandah, and Owner shall maintain such outdoor furniture free of mildew, rust, wood rot and deterioration of equipment components.
24. *Pergolas; Gazebos; Cabanas.* Pergolas, gazebos and cabanas may be approved by the Committee subject to the Association's guidelines for approval of Improvements, including, but not limited to, whether the proposed pergola, gazebo or cabana is in harmony with or detrimental to the appearance of the Community. All pergolas, gazebos and cabanas must include concrete footers or other mechanism to permanently secure the structure. All pergolas must be open-sided structures and may not have a solid roof.
25. *Flags.* Any homeowner may display up to two flags not larger than 4 ½ feet by 6 feet as follows: (i) the United States flag, (ii) the official flag of the State of Florida; (iii) a flag that represents the United States Army, Navy, Air Force, Marine Corps, Space Force, or Coast Guard, (iv) a POW-MIA flag, or (v) a "first responder flag" as defined by Florida Statute 720.304(2)(a)5. All flags must be displayed in a respectful manner and may be erected on a freestanding flagpole no more than 20 feet high on any portion of the Lot, so long as the flagpole does not obstruct sightlines at intersections and is not erected within or upon an easement. The flagpole and display are subject to all building codes, zoning setbacks, and other applicable governmental regulations, including, but not limited to, noise and lighting ordinances in the county or municipality in which the flagpole is erected and all setback and locational criteria contained in the Governing Documents. The above-described flags are the only permitted flags to be displayed outside a Home in the Community. Committee approval shall not be required for the installation of the flags permitted herein.
26. *Setbacks.* All Improvements (including, without limitation, pools and screen enclosures) shall comply with all setbacks and other dimensional requirements imposed by the appropriate development order for the Community, as well as all other applicable Governmental Regulations.
27. *Rear Yard Drainage Swale Easement.* If the Home is subject to a Rear Yard Drainage Swale Easement across the rear five feet (5') of the lot for drainage and flowage of stormwater runoff as more fully set forth in the Governing Documents, then except only for sod, mulch, shrubs, hedges and fences approved by the Committee or installed by Declarant, no Owner shall install any plantings, landscaping, pavers, pool decks and/or other Improvements whatsoever in, on, over or across any Rear Yard Drainage Swale Easement. All such approved improvements must be installed and constructed in a manner that will not block or cause any storm water runoff from any adjacent Lot or property (such as Association Property) to be impeded. To obtain approval, applicants must document that the approved drainage patterns will not be altered, and post-construction verification will be required. Owner shall also execute and deliver such removal and indemnification agreements as may be required by the Association and/or the Governmental Authorities as a further condition of permitting a fence, hedges and/or shrubs to be installed within any Rear Yard Drainage Swale Easement.
28. *Limitations for Improvements within Easements.* Except only for sod, mulch, shrubs, hedges, generators and fences approved by the Committee or installed by Declarant, no Owner shall install any plantings, landscaping, pavers, pool decks and/or other Improvements whatsoever in, on, over or across any Drainage Easement, Palm Beach County Utility Easement, or for corner lots only, any Utility Easement. 29. *Review and Inspection Fees.* The Committee may set, establish and charge fees (“Review and Inspection Fees”) for, among other things, processing Owner’s request for proposed Improvements, review of the plans and specifications for proposed Improvements and inspection of the Improvements constructed by an Owner, which review and inspection may be performed by third parties. The Committee may require that such Review and Inspection Fees be paid in advance (i.e., at the time of submission of the Owner’s application). In the event any Review and Inspection Fees remain unpaid by an Owner, in addition to the other rights of the Association, the Committee shall have the right, at its option, to: (i) not release the security deposit described below until all Review and Inspection Fees have been paid, or (ii) deduct all unpaid Review and Inspection Fees from any security deposit required to be paid by such Owner. In addition (and in addition to any other remedies under and pursuant to the Governing Documents for a failure of an Owner to perform Owner’s obligations), if any Review and Inspection Fees are not paid by an Owner, the Board may levy an Assessment against such Owner for such unpaid Review and Inspection Fees, and said Assessment shall constitute a lien upon the applicable Lot and Home with the same force and effect as liens for Operating Expenses.
30. *Security Deposit and Insurance.* Any Owner desiring to make Improvements may be required by the Committee, depending upon the Improvements being requested and the manner of installation of such Improvements, to provide to the Committee, at the time of the Owner’s submission of plans and specifications for review and approval by the Committee: (a) a security deposit in an amount determined by the Board (initially, Five Thousand and No/100 Dollars (\$5,000.00)) to cover costs of incidental damage caused to Association Property or to an adjacent Lot or Home by virtue of such Owner’s construction of Improvements and/or (b) a certificate of insurance from the contractor and/or subcontractor which shall include: (i) general liability insurance for a minimum of one (1) million dollars and name Lotus Edge Homeowners Association, Inc. as an “Additional Insured”, and (ii) workers compensation or a state of Florida workers compensation exemption. Owner shall also include a provision in such Owner’s contract or agreement with Owner’s contractor and/or subcontractor requiring that the Association be named as an additional insured under the contractor and/or subcontractor’s general liability insurance policy. The Committee shall have the sole and absolute discretion to determine whether a security deposit and/or certificate of insurance is required for the Improvements being requested. In addition, the amount of the security deposit and/or insurance required may be increased or decreased as may be determined by the Board from time to time.

Note that, even in the event of strict compliance with the following guidelines, prior approval from the Committee shall be required for each and every screen enclosure installation and are subject to any conditions imposed by the Committee if approved:

1. Approval for screen enclosures shall be limited to aluminum frame structures which are bronze.

ADDITIONAL GUIDELINES FOR ADDITIONS AND ALTERATIONS - FENCES

Without limiting the generality of the requirements set forth on Page 2 of these Rules and Regulations and without curtailing the right of the Committee or the Board in rejecting certain requests or employing judgment in evaluating requests, the following guidelines shall be considered when evaluating requests for fences and related Improvements. Note that, even in the event of strict compliance with the following guidelines, prior approval from the Committee shall be required for each and every fence installation and are subject to any conditions imposed by the Committee if approved:

1. Bronze aluminum rail fences in the type and form offered by Declarant throughout the Community shall be the only permissible type of fencing on the Lots within the Community. Fence heights shall be 5' in height, with vertical pickets spaced no closer than 3" on center and no thicker than 1", unless otherwise required by the Governmental Requirements. Owner may be permitted to install guard panels for small pets on the lower, inside portion of the aluminum rail fencing to further reduce picket spacing, subject to prior written approval of the Committee and any conditions required by the Committee.
2. No style of wood, PVC, chain link or electric fence shall be approved.
3. In accordance with the Declaration, an Owner who elects to install a fence on any portion of such Owner's Lot shall be required to install access gates in locations approved by the Committee which provide adequate and sufficient access to the Association to perform the maintenance obligations. Such gates shall be five feet (5') wide and may be located in the front, rear and/or sides of the Lot, as determined by the Committee. Lake Lot Owners shall be required to install two (2) five feet (5') wide gates, one of which must be located at the rear yard. In the event that access to any portion of a Lot by the Association becomes inaccessible or is impeded in any manner, the Owner of such Lot shall assume the full the responsibility for the maintenance and care of the lawn and landscaping located within that portion of the Lot which is inaccessible to the Association, and the Association shall have no further responsibility to do so as long as the Lot remains inaccessible or access is impeded. This maintenance includes, by way of example and not limitation, cutting of the grass, maintaining of the irrigation system, fertilization, spraying, mulching, edging and replacement of sod. There shall be no reduction in the Association assessments for the Owner in return for the preceding maintenance obligation assumed by the Owner.
4. Owners shall not be permitted to attach any items or objects to a fence, except for guard panels for small pets as described above and with prior written approval from the Committee.
5. The Association may require in its sole discretion the planting of landscaping in conjunction with the installation of a fence.
6. Except as expressly permitted in the Declaration and/or these Rules and Regulations, no fence shall be installed within the Fence Restricted Areas. The Fence Restricted Areas include (a) the area between the front of a Home and Street, Drive or Roadway at the front of the Lot on which the Home is situated, unless specifically required by the Palm Beach County Unified Land Development Code, or (b) any Lake, Lake Maintenance Easement or Lake Maintenance Access Easement. In addition, no fence shall be approved or installed which encroaches into Association Property or other Lots, open spaces, wetland mitigation areas, preserve tracts, conservation areas and/or wetland areas.
7. No fence shall be approved which: (i) attaches to the boundary or perimeter fence or wall located within any Open Space Area or other Association Property; or (ii) would otherwise fence-in or enclose any portion of an Open Space Area or other Association Property.
8. For any fence, if approved, the Owner shall be responsible to: (a) meet all Palm Beach County requirements and criteria including, but not limited to, proper permitting and surveying, and (b) maintain the fence, including trimming any grass or other plants from the fence.
9. For any fence, if approved, the Owner shall be responsible for the costs associated with any required removal, repair and/or replacement if that fence is erected on or adjacent to a lot line common with a Lot where the house is not yet under construction or, if under construction, not yet closed to the new Owner.
10. No fence shall be approved which is not set back a minimum of 10' back from the front wall of the Home and at least 5' back from the sidewalk where applicable. Notwithstanding the foregoing, the placement of fences in side and front yards may depend on lot and field conditions and only with the prior approval of the Committee, in the Committee's sole discretion. No fences shall be attached to a neighbor's home. In considering requests for fence installations, the following may be taken into consideration: locations of air conditioning units; locations of garage access doors; and positions of adjacent Homes.

ADDITIONAL GUIDELINES FOR ADDITIONS AND ALTERATIONS - FENCES
(continued)

11. No fence shall be approved which extends in front of the front corner of a neighbor's Home where the two Homes are immediately adjacent to each other and where both Homes face the same direction.
12. For fences installed on corner Lots whose side property line is adjacent to or visible from a road, a landscape hedge must be installed on the outer or inner side of the fence within the Lot to provide screening. In the event Declarant installs such fence on a corner lot but a landscape hedge is not available for purchase or purchased from Declarant, Owner will be required to add such landscape hedge after closing. In addition, if a utility easement runs along the corner Lot's side property line, fences may only be permitted if: (i) the fence is installed five feet (5') off of the property line; (ii) approved by the Committee, the utility companies occupying the easement and the Governmental Authorities; (iii) a removal and indemnification agreement is provided by Owner, as may be required by the Association, utility companies and/or any Governmental Authorities; and (iv) the landscape hedge is installed on the outer side of the fence.
13. No fence shall be approved which does not provide access to the Owner's neighbor for maintenance of the neighbor's zero lot line wall and roof overhang, if possible. All fences to be installed along the "non-zero lot line" side of a "zero lot line" Lot shall require a gate to provide access to the Owner's neighbor for maintenance of the neighbor's "zero lot line" wall and roof overhang.
14. No Owner shall be permitted to install a fence within any drainage easement without the prior written consent of the Committee. The Committee may approve the installation of a fence within a drainage easement where the Owner has obtained the approval and execution of a removal and indemnification agreement, signed by Owner in a form acceptable to the Association and/or any applicable Governmental Authorities.
15. No Owner shall be permitted to install a fence within any Palm Beach County Utility Easement without the prior written consent of the Committee and approval by the Palm Beach County Utility Department. The Committee may approve the installation of a fence within a Palm Beach County Utility Easement where the Owner has obtained the approval and execution of a removal and indemnification agreement, signed by Owner in a form acceptable to Palm Beach County Utilities Department and the Association.
16. To the extent a hedge is required to be installed as part of the fence approval issued by the Committee, or in the event an Owner desires to install a hedge in lieu of a fence, such hedge shall be subject to the same rules as fences as provided herein and must comply with all fencing guidelines contained within the Governing Documents, including, without limitation, rules regarding providing access for the Association to perform the Association's maintenance obligations, and any and all height and location restrictions. Notwithstanding the foregoing, and subject to the prior approval of the Committee, which may be withheld in its sole and absolute discretion, hedges which exceed the height of a five (5') foot fence may be planted for privacy purposes on non-Lake Lots. In the event the Owner fails to trim the hedges within fourteen (14) days following receipt of written notice by the Association to do so, then the Association shall have the right, but not the obligation, to trim such hedges. The costs associated with such hedge trimming performed by the Association will be charged as an assessment against the Owner's Lot. The determination of whether a hedge must be trimmed shall be determined by the Board in the Board's sole and absolute discretion.

ADDITIONAL GUIDELINES FOR ADDITIONS AND ALTERATIONS – GENERATOR SYSTEMS

Without limiting the generality of the requirements set forth on Page 2 of these Rules and Regulations and without curtailing the right of the Committee or the Board in rejecting certain requests or employing judgment in evaluating requests, the following guidelines shall be considered when evaluating requests for a permanent emergency generator and other appurtenances applicable to the permanent generator (collectively, a “Generator System”). Note that, even in the event of strict compliance with the following guidelines, prior approval from the Committee shall be required for each and every installation of a Generator System on a Lot and are subject to any conditions imposed by the Committee if approved:

1. *Location.* No above-ground portions of a Generator System shall be permitted to be installed within any portion of the front yard of a Lot, unless the Committee believes that lot and field conditions require the partial placement of the Generator System in the front yard. No portion of a Generator System shall encroach onto: (a) any Association Property, (b) any other Lot in the Community, (c) any easements benefiting or burdening the Lot including, without limitation, utility easements, drainage easements (except as may be permitted by the Committee with the execution of a removal and indemnification agreement in a form acceptable to the Association and/or the applicable Governmental Authorities), lake maintenance easements, lake maintenance access easements, zero lot line maintenance and/or roof overhang and encroachment easements, or (d) drainage swales on the Lot. In addition to the foregoing, the locations of the various components of the Generator System shall otherwise comply with all Governmental Requirements. The location of the Generator System shall also comply with all applicable setback requirements set forth in the Association Documents and Governmental Requirements.
2. *Applications; Submittals.* All applications to the Committee for Generator Systems shall include, in addition to other standard information: (a) the make, model, gas capacity and sound level ratings for all components of the Generator System, and (b) an indemnification and hold harmless agreement from the Owners of the Lot in favor of the Association, the Committee and all other Owners. With the application for installation of a Generator System, the Owner shall be required to submit a survey to the Committee showing the general location and placement of all components of the Generator System, including any underground propane storage tank (if any). The survey shall depict (i) the location of all components of the Generator System including, without limitation, the storage tank and the distances from the Home on the Lot and the Homes adjacent to the Lot on the sides where the Generator System or any portion thereof is to be installed, (ii) the size and layout of the slab that the physical generator will be installed on, (iii) the location of all easements and applicable setbacks affecting the Lot to show that no portion of the Generator System encroaches thereon, and (iv) the location and size and species of any screening to be installed to screen the above-ground portions of the Generator System as required below.
3. *Screening.* Generators shall at all times be screened from view by all adjacent Lot Owners and from the street using hedges, as determined by the Committee. Owner shall submit a landscaping/screening plan to show proper screening of the Generator. Owner shall be responsible to maintain, repair and replace from time to time hedges which may be approved as part of the screening requirements for the Generator System.
4. *Compliance with Governmental Requirements.* For any Generator System approved by the Committee, the Owner shall at all times be responsible to comply with all Governmental Requirements relating to the installation and use of the Generator System including, without limitation, applicable setback requirements and maximum sound level restrictions. In that regard, all approvals for a Generator System shall require the Owner to obtain all necessary building permits and other approvals required by the Governmental Requirements. Regardless of an approval by the Committee, no Generator System may be installed or used without such building permits and approvals. No portion of an Owner’s Security Deposit shall be returned to an Owner unless and until evidence satisfactory to the Committee of such compliance with Governmental Requirements has been delivered to the Committee.
5. *Plumbing.* A licensed and insured LP gas contractor must be used to install any necessary plumbing and/or any connections to existing gas lines on the Lot or underground propane tank, as applicable.
6. *Maintenance.* All Generator Systems must be regularly and properly maintained, repaired and replaced, as applicable, by the Owner of the Lot on which such Generator System is installed.
7. *Required Removals.* For any Generator System, if approved, the Owner shall be responsible for the costs associated with any required removal, repair and/or replacement if the Generator System is erected on or adjacent to a lot line common with a Lot where the house is not yet under construction or, if under construction, not yet closed to the new Owner.
8. *Limitations.* Not all Lots in the Community may be able to have Generator System installed thereon due to, among other things, the Governmental Requirements, applicable setback requirements, location of easements and the configuration of

ADDITIONAL GUIDELINES FOR ADDITIONS AND ALTERATIONS – TRAMPOLINES

Without limiting the generality of the requirements set forth on Page 2 of these Rules and Regulations and without curtailing the right of the Committee or the Board in rejecting certain requests or employing judgment in evaluating requests, the following guidelines shall be considered when evaluating requests for trampolines and related Improvements. These Rules and Regulations regarding the use and location of trampolines are designed for the mutual benefit of all Owners. The mere fact that the Association has established rules regarding the use of trampolines on privately owned Lots should not be read, viewed, understood or taken as Association approval of the use or placement of any trampoline. The following rules and regulations are in addition to Rule 12 titled "Play Equipment" of the Additional Guidelines for Additions and Alterations. Note that, even in the event of strict compliance with the following guidelines, prior approval from the Committee shall be required for each and every installation of a trampoline on a Lot and are subject to any conditions imposed by the Committee if approved:

1. *Approval*

- (a) No trampoline shall be installed or otherwise placed on the Lot of any Owner without the Owner first submitting an application and receiving approval from the Committee. Such application should include, in addition to the other information required by these Rules and Regulations: (i) the make, model and specifications of the trampoline, (ii) a picture of the proposed trampoline, (iii) the intended designated location for placement of the trampoline on the Lot, and (iv) such other requirements as may be set out herein, and/or as requested by the Committee and/or the Board.
- (b) By submitting a request to the Committee to review and approve the placement of a trampoline on a Lot, the Owner shall be deemed to have automatically recognized and agreed that use of a trampoline is an inherently dangerous activity, and the Committee's approval of the placement of the trampoline is in no way an indication of acceptance of responsibility for, or liability by, the Association. By submitting such request to the Committee, the Owner shall be deemed to have automatically agreed, by virtue of such request, to release, hold harmless and indemnify the Association and its officers, directors and members, the Committee Members and the Declarant from any and all claims, damages, liabilities, injuries (including personal injuries and/or death), fees, costs, and expenses including, without limitation, Legal Fees that may arise from the use and/or placement of the trampoline, and/or the Committee's approval of the trampoline.
- (c) The Committee, in its sole discretion, may, upon application of any Owner in accordance with this Rule, permit the trampoline to be placed on the Owner's Lot. Each submission will be evaluated separately, on a case by case basis. The permitting of a trampoline on an Owner's Lot by the Board does not prohibit the Board from denying the placement of a trampoline on another Owner's Lot under similar circumstances.
- (d) All Committee approvals are and shall remain contingent upon each Owner ensuring that upon issuance of a tropical storm, hurricane or severe weather watch or warning the approved trampoline is stored indoors.
- (e) By submitting a request to the Committee to review and approve the placement of play equipment on a Lot, the Owner shall be deemed to automatically agree that the Association shall not have any responsibility for the maintenance and care, mowing, fertilization, repair and/or replacement of sod or other plantings located under the play equipment, all such responsibilities thereafter being the responsibility of the Owner of the Lot.

2. *Use*

- (a) Use of the trampoline by anyone under the age of eighteen (18) is prohibited without adult supervision.
- (b) No trampoline may be used unless the safety net is properly installed and in use.

3. *Placement*

- (a) The placement and use of a trampoline is only permitted in the back yard of the Lot.
- (b) No trampoline is, or shall be, permitted on a Lot that is not completely fenced in.
- (c) No trampoline shall be located within any required setback, and/or easement including, but not limited to, the lake maintenance, utility, drainage or access easements.

4. *Materials*

- (a) All trampolines must be constructed with heavy duty steel tubing and must not show rust on the exterior.
- (b) All trampolines must include a fixed safety net designed to prevent the user from falling off the trampoline.

LOTUS EDGE HOMEOWNERS ASSOCIATION, INC.
INITIAL RULES AND REGULATIONS

ADDITIONAL GUIDELINES FOR ADDITIONS AND ALTERATIONS – TRAMPOLINES (continued)

- (c) All trampolines must be capable of being stored indoors.
- (d) In the event an in-ground trampoline is approved, Owner must install a 12" mulch border around the in-ground trampoline.
- 5. *No Maintenance/Replacement of Sod under Trampoline.* By submitting a request to the Committee to review and approve the placement of a trampoline on a Lot, the Owner shall be deemed to automatically agree that the Association shall not have any responsibility for the maintenance and care, mowing, fertilization, repair and/or replacement of sod or other plantings located under the trampoline, all such responsibilities thereafter being the responsibility of the Owner of the Lot.
- 6. *Remedies*
 - (a) In the event the Owner does not properly care for or otherwise maintain the approved trampoline and the area immediately adjacent to and/or under the approved trampoline, then, after five (5) business days written notice sent to the Owner, the Association shall have the right, but not the obligation, to remove the approved trampoline from the Owner's Lot and dispose of the removed trampoline in a proper trash receptacle and/or the Association may perform such lawn care maintenance around and under the trampoline and charge the Owner for such services.
 - (b) All fees and costs related to the enforcement of these Rules and Regulations regarding Trampolines, including without limitation, all Legal Fees, shall be collectible by the Association in a manner similar to Assessments including, without limitation, the right to lien and foreclose the Owner's Lot.

Maintenance obligations are more fully defined in the Declaration.
2. *Personal Property.* The personal property of an Owner shall be stored inside such Owner's Home or garage and not be visible to surrounding neighbors or from Association Property.
3. *Hurricane Season.* Each Owner who plans to be absent from such Owner's Home during the hurricane season shall prepare the Home and Lot prior to departure by removing all furniture, potted plants and other movable objects, if any, from the covered patio or screen enclosure area and from the outside of the Home. 6. *No Alteration of Drainage.* No sod, artificial turf, top soil, fill or muck shall be removed from or added to Lots without the prior written consent of the Committee. No change in the condition of the soil or the level of land shall be made which would result in any permanent change in the flow or drainage of surface water within the Community or on the Lot.
7. *Air Drying.* No linens, cloths, clothing, curtains, rugs, mops, laundry of any kind or other articles shall be hung, dried or aired from any window, door, fence or balcony, or in such a way as to be visible to any other Owner. Such replacement shall be with replacement material of similar size and species if the being replaced unless approved by the Committee. The Association may, at its option, discontinue replacing sod on the Lots, in which event the replacement of any sod on the Lots would become the responsibility of the Owners. In the event that the Committee approves any additional trees, shrubbery or landscaping to be installed on the Lot which was not initially installed by Declarant, the Association's Home Landscaping Services will not include the maintenance and care of such additional material.
